

Gravity AI Prompt: Build a Django Portfolio Website for SunnyCode

Design Reference:

https://preview.themeforest.net/item/codence-developer-software-engineer-portfolio-elementor-template-kit/full_screen_preview/59268516

Objective:

Replicate the Codence template design closely using Django while replacing all content with my (Sunday Emmanuel Emenike) details, skills, experience, and portfolio.

Website Requirements:

- Backend: Django
- Frontend: HTML/CSS/JS (Tailwind optional)
- Django template system
- Working contact form (email-enabled)
- Admin panel for managing content:
 - * Portfolio items
 - * Skills
 - * Hero/Homepage content
 - * About section
 - * Blog posts (optional)
 - * CV upload

Personal Details:

Name: Sunday Emmanuel Emenike

Brand: SunnyCode

Address: 11 Kusenla Rd, Ikate Elegushi, Lekki, Lagos

Email: sunnyemmanuel5@gmail.com

Phone: 07083659432 / 08154431918

GitHub: <https://github.com/sunnyemmanuel>

Skills:

Web Development:

- Django, Django REST Framework
- Python
- JavaScript
- React.js
- Docker
- AWS
- API development

Additional Skills:

- Project Research
- Project Management (Asana, Jira)
- Graphic Design (Photoshop, Illustrator)
- Microsoft Office Suite

Work Experience:

Hip-Touch Solutions Limited – Logistics/Procurement Officer (2012–2013)

Grace First Property – Facility Manager (2017)

Diamond Acre Software (DAS) – Junior Software Engineer (2018–2020)

Wakaati NG Limited – Software Engineer/Facilitator (2023–2024)

Portfolio Projects:

- <https://gotlaundrydelivers.com/>
- <https://nonstopsource.com/>

- <https://vetrytech.com/>
- <https://stowpoint.co.uk/>
- <https://summit.guide/>
- <https://movein.ng/>

Website Pages:

- Home (Hero, skills, highlights)
- About Me (bio, skillset, timeline)
- Portfolio (projects with images, stack & links)
- Contact (email form, contact info)
- Blog (optional)
- CV download

Admin Capabilities:

- CRUD for projects, skills, experience, blog posts
- Manage hero/about content
- Manage contact settings
- Upload CV
- Manage testimonials (optional)

Deliverables:

- Complete Django source code
- Templates matching Codence look
- Static & media assets
- Fully functional admin panel
- README with setup instructions

Notes:

- Keep design almost identical to Codence template.
- Ensure mobile responsiveness.
- Optimize for performance and SEO.
